

Full contact center power. In every agent's pocket.

Native iOS and Android calling on your existing Five9 infrastructure. Deploy quickly. Zero desk dependency.

WHY TEAMS CHOOSE OUTBOUND GOAT MOBILE

Speed-to-Lead

Capture high value leads during peak conversion windows regardless of agent location. Turn travel and downtime into productive contact hours.

True Mobility

Full Five9 capabilities on native iOS and Android. Replaces desk-bound hardware for field, remote, and distributed teams.

Operational Visibility

Automated CRM syncing keeps every mobile interaction in your single source of truth. Supervisors coach in real time from any device.

Enterprise Features, Mid-Market Price

Virtual private servers and dedicated TAM support without enterprise seat minimums. Transparent, tiered pricing built for growth.

KEY CAPABILITIES

- Mute, hold, transfer, and conference from the handset
- Native call dispositions and wrap-up states
- SMS and email (when enabled in Five9 domain)
- Full field agent and remote team support
- Real-time supervisor monitoring from any device
- Automated CRM sync on every interaction

IDEAL FOR

- High-velocity outbound sales teams
- Real estate and field service
- Healthcare and home-health staff
- Insurance adjusters
- Logistics and last-mile delivery
- Retail and seasonal workforces

PRICING - Pricing does not include one-time implementation and server setup. Beta opportunities available at reduced cost.
